FOREWORD

The 18th All India Livestock Census covering poultry as well as agriculture implements, machinery and fishery statistics conducted in the state of West Bengal was completed in scheduled time by the Directorate of Animal Resources and Animal Health, Government of West Bengal, with 15th October 2007 as reference date.

This report has been prepared to be very effective with rural/urban as well as mouza/parawise elaborate breakups for each district. Moreover the introduction of a Geographical Information System (GIS) since last census year with digital mapping of livestock data at mouza, G.P., Block, Sub-Division (Rural) and District (Rural) level for rural areas and ward, Municipal area, Sub-Division (Urban) and District (Urban) level for urban area has added new dimension to the livestock census of our state.

In this connection I greatly appreciate the well coordinated team work of Dr. P. K. Bhattacharjee, Joint Director of Animal Husbandry (Statistics) as well as Additional State Livestock Census Officer, Shri T. R. Nath, Statistical Officer and Deputy State Livestock Census Officer, 18th Livestock Census, along with other Officers and Staff of the Animal Resources Development Department in making the 18th Livestock Census a successful one.

Like previous years this census report will be most utilized in formulating different welfare plans and schemes for the state as well as in various relevant research projects.

PREFACE

The final report of the 18th All India Livestock Census for the state of West Bengal with reference date 15th October 2007, has been successfully prepared within due time. This vast well compiled report with district-wise mouza/para level data consists of updated basic data on livestock and poultry population, agriculture implements and machinery, fisheries and livestock and fishery infrastructure.

The team of officers whose hard work and co-operation has been indispensable for the timely completion of census work and publication of the report are Dr. P. K. Bhattacharjee, Joint Director of Animal Husbandry (Statistics) and Shri T. R. Nath, Statistical Officer and Deputy State Livestock Census Officer, 18th Livestock Census, along with innumerable district and state-level Livestock Census Officers and Staff.

The information provided in the report will prove very useful to all those who use animal husbandry related data in their respective work areas.

INTRODUCTION

The Directorate of Animal Resources and Animal Health, Government of West Bengal in co-ordination with Government of India, Department of Animal Husbandry, Dairying and Fisheries, has completed the 18th All India Livestock Census in the state of West Bengal in due time. Apart from enumeration, supervision, compilation and tabulation, this huge census work also involves publication of both hard and soft copies of the report.

Dr. P. K. Bhattacharjee, Joint Director of Animal Husbandry (Statistics) and Additional State Livestock Census Officer, 18th Livestock Census, West Bengal, Shri T.R. Nath, Statistical Officer and Deputy State Livestock Census Officer, 18th Livestock Census, West Bengal and many other Officers and Staff of this directorate have efficiently shouldered the responsibility of completing the census work with perfection.

Planners as well as all people working in animal resources and associated sectors will be amply benefitted from the useful findings of this elaborate census work.

TECHNICAL ASPECTS OF THE 18TH LIVESTOCK CENSUS

The total count of livestock population and its composition is available from the livestock census, which is the most important single source of data. The Department of Animal Husbandry, Dairying and Fisheries, Ministry of Agriculture, Government of India, conducted the 18th Livestock Census with reference date 15th October 2007. The census operations are carried out in different States and Union Territories by the respective State Governments. Undoubtedly an expensive statistical exercise this census it is indispensable for understanding the demographic structure of our livestock so as to be properly equipped to carry out livestock improvement programmes in the country. The livestock census covers not only livestock but includes information on fisheries and agricultural implements and machinery.

In 1919-20, the first livestock census of cattle was conducted. The subsequent censuses were conducted at intervals of five years. 18 such livestock censuses have been completed till now.

In the 18th Livestock Census, breed-wise data of indigenous cattle, buffalo, sheep, goat, pig and fowl was collected for the first time in the State of West Bengal. In the present report the cross-bred and indigenous cattle have been clubbed together as in the earlier reports for comparability with the past.

Canvassed schedule of enquiry in each household obtains information on 512 items for each household. In addition, information on another 127 items on livestock and fishery infrastructure and commercial poultry birds stock is collected for each mouza, ward and each commercial poultry farm. Field workers undertake house-to-house enumeration to ascertain stock of livestock, agricultural implements and machinery, fishing craft and tackle (as well as number of persons engaged in fishing and ancillary activities), etc., possessed by households and institutions. The field work is mainly conducted by primary workers, consisting of staff drawn from the Animal Resources Development Department and Pranibandhu personnel¹.

State-level training of trainers was arranged at Barasat, in the district of North 24 Parganas. A manual of instructions was circulated to all districts. State-level Livestock Census Officers and Headquarters Officers of the Statistical Cell also trained the block/municipality/sub-division Livestock Census Officers. The trained officers in turn trained the enumerators in the field work. A tabulation manual was prepared and sent to all districts to obtain the data in tabulated form.

Livestock, Poultry, Agricultural Implements and Machinery, and Fisheries are the four main parts of the Livestock Census. As these four parts involve a huge amount of data compilation, appropriate software called LCMS (Livestock Census Management System) has been developed. In West Bengal, Geographical Information System (GIS) has been developed for digital mapping of livestock data at all levels for each district. The systematic data base prepared in the 18th Livestock Census goes down to the level of mouza/para. The district profile includes pictorial graphs and the write-up gives a comprehensive account of the State's livestock position.

¹educated unemployed youths trained in livestock care by Paschim Banga Go-sampad Bikash Sanstha, a Govt. of West Bengal organisation.

I would like to place on record my deep appreciation for Sri Anisur Rahaman, Hon'ble Minister-in-Charge, Animal Resources Development Department, Sri D.K. Chakraborty, IAS, Principal Secretary to the Government of West Bengal, Animal Resources Development Department and Dr. K. Saha, Director of Animal Husbandry and Veterinary Services, Directorate of Animal Resources and Animal Health for their constant encouragement in compilation of the Report on the 18th Livestock Census. Their valuable suggestions have greatly contributed to the successful completion of the Livestock Census.

We are thankful to Dr. D.K. Das, Chief Executive Officer, Paschim Banga Go-sampad Bikash Sanstha, for his encouragement in the engagement of Pranibandhus in the enumeration work.

This report has received immense help and cooperation from all officers and staff of the Animal Resources Development Department. I wish to express my sincere appreciation to all of them for their whole-hearted support.

The preparation of the report has been made possible primarily due to the keen interest of Sri Tushar Ranjan Nath, Statistical Officer and Deputy State Livestock Census Officer, 18th Livestock Census, West Bengal who worked very sincerely and with great zeal in achieving the target of releasing the results in the shortest possible time. Sri Nath developed the aspects of computerization, digital mapping and analytical work, and prepared the district profiles with the Assistance of Dr. Arindam Kundu, Statistical Officer and Assistant State Livestock Census Officer, Smt. Supriya Roy, Bengali Translator and Assistant Livestock Census Officer (Publicity) of this Directorate has also worked hard to make possible the elaborate and informative introductory write up on each of the nineteen districts and for the state of West Bengal as a whole. I also acknowledge the contribution made by other officers and staff of the Statistical Cell in bringing out the results in a very short time.

The statistical help received from the Bureau of Applied Economics and Statistics, Government of West Bengal, Department of Animal Husbandry, Dairying and Fisheries, Ministry of Agriculture, Government of India and other different organisations/institutions for various analytical parts of the Report is thankfully acknowledged.

The management of Silpabarta Printing Press Ltd. (a Government of West Bengal Undertaking) and workers deserve appreciation for their unfailing cooperation in printing of books and computerized tabulation.

I am sure that scientists, researchers, policy planners and livestock data experts will benefit immensely from the information contained in this publication. We look forward to suggestions and comments on the information contained in this publication, which will be valuable for our future publications.

MESSAGE

The 18th All India Livestock Census, Agriculture Implements & Machinery, Fishery Statistics was conducted in the district of Dakshin Dinajpur with 15th October, 2007 as reference date throughout the State of West Bengal as a part of all India Programme in this direction and completed in due time.

The duties performed by the Enumerators, Tabulators and Census Officer for completing the huge work was of great national importance and all have fulfilled their responsibilities with pride and devotion.

The present report provides rural/ urban break-up as well as detailed mouza/ para wise break-up. Hope this up-dated data will be very much useful for detailed planning, development and formulating different schemes of livestock, poultry, fishery, agriculture and rural development in our district, Dakshin Dinajpur.

Acknowledgement

'The 18th All India Livestock Census was conducted throughout the state of West Bengal with 15th October' 2007, the reference date. It was a scheduled programme to be completed within stipulated time. Besides, data collection (Door to Door) from A.H. Sector, it was a programme for Fishery and Agriculture also.

We engaged L.D.As and Pranibandhus as primary enumerator and they performed the major part of the work, accurate data collection and their posting in related column in the enumeration booklet.

We engaged Veterinary Officers as tabulators in the Block level to get better performance as they are very close to them and also for perfect tabulation and related compilation. Block and Municipality Livestock Census Officer also performed a great role in monitoring block and Municipality census teams and guided them in right way. In case of Harirampur Block, the Veterinary Officer, Block Animal Health Centre performed the duties of B.C.O, Harirampur as there is no establishment of B.L.D.O.

Sub-divisional Livestock Census Offices discharged the duties of field checking, monitoring activities etc.

Two Assistant District Livestock Census Officers namely Dr. Bikash Ch. Rana and Sri Satya Ranjan Mandal discharged their duties regarding training programme, monitoring, field checking, cross checking of the compiled data.

At the fag end it was identified that the enumeration work of Patiram G.P. under Balurghat Block was undone/num checked. On emergency basis, a team with 21 nos. enumerators and supervisors were engaged on 04.01.08 to perform the job on the same day. This is really a great decision and an example of the responsibly of District Census Officer.

Due to the Bird Flu incidences on 15th January' 08, the rest part of district compilation and tabulation was delayed though field level work had been completed. During containment situation, the primary target to culling was assayed as 28000 (approx) on the basis of 2003 Livestock Census but the said no. was 79437 on completion, which reveals the importance of Quinquennial Census. The said data also helps us to evaluate the importance of Chick Distribution Programme of Dakshin Dinajpur. With the great sorrow, we also feel that even in the 21st Century, the rural economy is too much dependent on Livestock specially poultry.

The District Magistrate, Dakshin Dinajpur had taken the co-coordinating role between the Govt. Departments and Panchayet.

We express our gratitude to the three tire Panchayet functionaries along with the Gram Sansad/Gram Unnayan Samity for their every cooperation in the programme. We conveyed such through a letter also.

Lastly a suggestion may be offered to the state level authorities to synchronize such vast no. of columns.

DAKSHIN DINAJPUR DISTRICT PROFILE

INTRODUCTION :

The erstwhile Dinajpur district at the time of partition of India was split up into West Dinajpur and East Dinajpur. The East Dinajpur district later came to be called Dinajpur and became part of East Pakistan i.e. present Bangladesh. The West Dinajpur district was enlarged in 1956 with some added areas from Bihar. In April 1992 the district was bifurcated into Uttar and Dakshin Dinajpur.

LOCATION :

The district lies between 26° 35' 15" and 25° 10' 55" north latitudes and between 89° 0' 30" and 87° 48' 37" east longitudes in the Jalpaiguri Division of West Bengal.

ORIGIN :

There is no local tradition regarding the origin of the name Dinajpur, and it is also rather difficult to advance any satisfactory theory about the origin of the name. It is, however, not unreasonable to conjecture that the name Dinajpur is derived from the name of some local chieftain or king. It is well known that Raja Ganesh, the Hindu chieftain of North Bengal, became the king of Gaur in the early part of the fifteenth century A.D. He assumed the title of Danujamardana-deva, and it is not unlikely that the name Dinajpur is derived from that title of Raja Ganesh.

It appears from a seal discovered amidst the ruins of Mahasthangarh in Bogra district, East Pakistan, that Mahasthangarh was the ancient city of Pundravardhana or Pundranagara. The Maurya seal proves that this tract formed a part of the Maurya empire. The discovery of terra-cotta figurines of the shunga period and Kushana gold coins at Mahasthangarh and at Bangarh indicates that Pundravardhana maintained its relations with the rest of India during the reigns of the Shunga and Kushana period. On the evidence of the copper-plate inscriptions of Kumaragupta I and Budhagupta found in Damodarpur in police station Phulbari, now in East Pakistan, and the copper-plate found in the village Baigram near Hili, it is reasonable to conclude that Pundravardhana bhukti of the Gupta empire included the district of Dinajpur. The district continued to form part of the Pundravardhana bhukti during the reign of the Pala kings. In fact, Varendri which was situated in Pundravardhana-bhukti, has been mentioned as the fatherland of the Palas in an inscription of Mahipala I. The Tapandighi copper-plate inscription of Lakshmanasena proves that the area which now comprises the district of West Dinajpur, formed a part of the Sena kingdom.

The greater portion of the district of West Dinajpur formed a part of the Khalji kingdom in Bengal. Devkot (Bangarh) was the capital till 1220 A.D. after which it remained a military post. It is, however, difficult to say whether the kingdom of the Khaljis extended up to the northern boundary of the present district of West Dinajpur. Akbar conquered Bengal in 1585 A.D. During Akbar's reign West Dinajpur probably formed a part of the Sarkar of Tajpur. It appears from the Siyar-ul-mutakharin that Bengal was divided into ten districts, each under a Faujdar. Dinajpur was not one of the ten districts and it is difficult to say the Faujdar of which place exercised jurisdiction over it. In A.D. 1600, Akbar divided the Empire into fifteen Soobas, and made his son Selim Soobadar of Bengal. The Sooba was divided into twenty-four Sarkars, and parts of six of these Sarkars fall within the limits of the district of Dinajpur. About the time of Akbar's settlement there was at Dinajpur, a man, in possession of a considerable part of what are now the districts of Dinajpur and Maldah. Buchanan calls him Kasi, but, whether he is correct or not, the name is now utterly forgotten.

His life was reputed to have been very holy and he was spoken of as a Brahmachari. It appears that this Brahmachari left his estate to a disciple, Srimanta Datta Chaudhuri, a Kayastha householder, who came

originally from the east. He had a son and a daughter, but the former died without issue and the estates fell to Sukdeb, the daughter's son.

In the time of Sookdeb, or of his father, the family of Khetal became extinct, and its estates were divided, seven-sixteenths coming to Sookdeb Roy, whose father and grandfather may have inherited the office of Dewan from their ancestor, and the remaining nine-sixteenths falling to another officer who founded the family of Bordonkootee or Idrakpoor, still in existence. The lands thus added to the estate are in Sarkar Ghoraghat and comprise the Thanas of Nowabgunj and Ghoraghat, and in Bogra the Thanas Khetal, Sheebgunj, Panchbibee, Bodolgachee, and Adamdighee and perhaps more.

Sookdeb Roy died A.D. 1677. It is said that the extent of his possessions induced the Mahomedans to bestow upon him the title of Raja but the "sanad" is no longer in existence. Nothing is known of his personal character, or of his history; he perpetuated his name by digging the tank of Sookhasagor, or the 'Sea of Pleasure'. Sukdeb left three sons of whom the eldest died young, the second ruled for five years from 1677-1682 A.D., and was succeeded by the youngest, Prannath, who ruled for forty years. A sanad dated 1679 A.D., granted by Prince Muhammad Azim-ud-din in the reign of the Emperor Alamgir, is still preserved in the rajbari, in which the succession of some one to Sukdeb's property is recorded. Unfortunately the name of this successor is obliterated. The Raja of Dinajpur was permitted to rule undisturbed over some three-quarters of a million of people, on condition of paying a certain portion of his revenues to the Subahdar of Bengal.

Prannath reigned for forty years and is credited with having made considerable additions to his ancestral property. He appears to have been a powerful and unscrupulous prince, and the additions referred to were probably acquired by force of arms. It is hard at this distance of time to ascertain exactly what these lands were, but tradition says that, besides pargana Maligaon forming the eastern half of thana Bangshihari, and a considerable area in Malda, he absorbed some twelve small estates which were surrounded by the Raj property. He has commemorated his name in various parts of the district. Twelve miles south of Dinajpur town on the Murshidabad Road is a fine tank named Pransagar or 'Sea of Life' which he constructed. Twelve miles north of the town of Dinajpur, on the Darjeeling Road is the temple of Kantanagar, built, though not finished, by this prince. It is picturesquely situated on the bank of the Dhepa, and is a fine specimen of the art of the time, being decorated all over with terra-cotta reliefs. In the course of centuries this temple fell into considerable disrepair and was greatly damaged by the 1897 earthquake. It was restored by the Maharaja Girijanath Roy Bahadur. Prannath's favourite country seat is said to have been Pran nagar, on the road between Birganj and Thakurgaon, but the remains of the original buildings have almost disappeared.

Having no son, Prannath adopted a young relative named Ramnath, who on his succession to the gadi paid a succession fee of Rs. 4,21,450 to the Subahdar of Bengal. This prince is popularly supposed to have been more powerful and unscrupulous than his predecessor, and to have been in addition a warrior of considerable personal prowess. His mail shirt and spear were preserved in the rajbari down to a late period. He seems further to have been a persona grata with the Subahdar of Bengal who granted him three sanads, conferring on him additional estates in thanas Patiram, Patnitala and Gangarampur. Raamnath conquered and dispossessed the zamindar of Gobindanagar, near the present village of Thakurgaon, employing a Brahmana to steal his protecting deity or family idol Gobinda, and thus causing his downfall. The conqueror subsequently constructed a canal connecting Gobindanagar on the Tangan with Prannagar near the Punarbhava for the purpose of taking the idol backwards and forwards between the two places. This canal is still in existence and is called the Ramdanra. Raja Ramnath died in 1760 A.D., and was succeeded by his son Baidyanath.

The district came under the control of the East India Company in 1765, the year in which the East India Company obtained the Diwani of Bengal. The acquisition of the Diwani by the East India Company

did not bring about any major change in the administrative machinery as they wanted to remain content with the surplus revenue of Bengal, after meeting their obligations to the Nawab and the Emperor Shah Alam. They therefore, appointed Muhammad Reza Khan as their Naib or Deputy at Murshidabad. A Resident was appointed at Murshidabad to supervise the work of Muhammad Reza Khan in regard to revenue collection but such supervision must have been purely nominal, as we find the Court of Directors, in 1768, laying the blame for short collection of the revenue of Dinajpur and some other districts on the Nawab and Muhammad Reza Khan.

In 1780 A.D. the Raja of Dinajpur died without an heir and his widow, Rani Saraswati, adopted a young boy named Radhanath and acted as the guardian of the minor. Taking advantage of the tender age of the new Maharaja, the East India Company farmed out the zamindari to one Devi Singh to ensure collection of revenue. Devi Singh by his exactions and oppressions drove the peasantry into rebellion. The rebellion assumed such magnitude that troops had to be called in and many persons were severely punished or executed before law and order could be re-established.

In 1780 A.D., Raja Baidyanath died without an heir, and his widow Rani Saraswati adopted a young boy named Radhanath, and on payment of a succession fee of 730 mohurs, obtained from the British a sanad declaring Radhanath successor to Baidyanath. This sanad detailed the lands composing the estate, and was signed by Warren Hastings.

In 1792 A.D. Raja Radhanath was placed in charge of the estate, a year or so after the conclusion of the Decennial Settlement. The jama at which the Settlement was made was fixed at Sicca Rs. 1,402,086 or equal to 72.5 per cent of the gross produce. It is therefore no wonder that the Raja could not fulfill his engagements. In 1794 his seal was seized and was locked up in the Collectorate Treasury, and Ram Kanta Ray was again appointed Manager. The Raja appears to have been reinstated in about 1796 A.D., but in 1797 A.D. arrears of revenue accrued to the extent of some 70,000 rupees, and by the order of the Board of Revenue part of the estate was sold. In the years that followed, the revenue continued to be in arrears as a result of which further sales were effected, and the condition of the estate went from bad to worse. The Raja struggled to save his estate by raising money on mortgages (one of the principal creditors being Ram Kanta Ray), and buying back parts of the estate under assumed names. His wife Rani Tripura Sundari and the old Rani Saraswati also purchased lands to a considerable extent. By the end of 1800 A.D. almost the whole estate had been alienated, and the Raja was virtually a prisoner in his own house as his creditors were threatening to seize his person and to have him imprisoned. The estate of the Maharaja of Dinajpur practically disintegrated after Radhanath. The ruin of this ancient family records the most significant change that occurred in the district of Dinajpur after the East India Company took over its management.

The representatives in India of the East India Company probably did not think it wise to allow a powerful local magnate like the Maharaja of Dinajpur to possess such a vast tract of land. They perhaps thought that with the weakening of the power and prestige of the Maharaja of Dinajpur it would become easier for them to strengthen their hold over the region. The East India Company took vigorous measures, employing detachments of the Army to bring these marauders to book and finally by the beginning of the nineteenth century succeeded in ultimately stamping out these banditti. The British rule thus brought peace to the country side.

In 1781, the Collectors were reposted to districts. In April, 1787 the boundary of the district was readjusted. The district of Dinajpur was included in the Murshidabad Division which consisted of the districts of Bhagalpur and Purnea, Dinajpur, Rangpur and Rajshahi, Birbhum, and the city of Murshidabad.

In 1905 the proposal to divide Bengal was made ostensibly for administrative convenience and for ensuring advancement in East Bengal and Assam in the fields of education, etc. This move was strongly opposed by the people of the district in meetings held on the 21st July, 1905. Lal Mohan Ghosh suggested that all honorary magistrates and all members of district boards, municipal commissioners and panchayats

should resign in a body and national mourning should be observed for twelve months during which the people should not participate in any public rejoicing. This meeting was presided over by the Maharaja of Dinajpur. The partition was, however, proclaimed in September, 1905. The reaction in the district, to the proclamation, was sharp and a number of meetings were held. Maharaja Girija Nath Roy took the leading part in the agitation against the partition. People were urged to boycott English goods by way of protest against the partition of the country. Public feelings ran so high that no reception could be accorded to the visiting Lieutenant Governor. A National School was opened at Dinajpur for boycotting the education which was then being imparted under the control of the Government. Societies were formed to direct and control the agitation and branches of the Bratee Samiti and of the Anusilan Samiti were formed at Dinajpur town by 1908.

By the First World War, revolutionary movement spread in the district of Dinajpur. When the struggle for swaraj began in 1919, local Congress leaders of Balurghat preached the ideals of the Congress throughout the sub-divisions. Some Primary Congress Committees were organized even in interior villages. A spirit of resistance was roused amongst the masses, and a non-violent peasant movement was launched against oppression by the zamindars in various forms. A mahila samiti, a National School, an Arbitration Board for settlement of civil disputes, a National Sub-Registrar's Office, etc., were set up at Balurghat. Although these attempts at setting up a parallel administration did not naturally succeed, Hindus and Muslims of the district jointly took part in the Khilafat movement of 1920. In 1924, Purna Chandra Das, a noted revolutionary, was arrested at Dinajpur.

The Swarajya Party, in accordance with its avowed object, succeeded in capturing the seats in Balurghat and Dinajpur Local Boards. In 1928, there was a hartal in Dinajpur in protest against the Simon Commission. In 1929, the Congress candidates were elected from non-Mohammedan constituencies. In 1930, hartals and picketings were resorted to by the people of Dinajpur in protest against Gandhiji's arrest. The Congress volunteers made non-violent attempts, which were of course unsuccessful, to re-occupy the local Congress office which had been besieged by the Police. The Government replied by extending the provisions of the Prevention of Intimidation and Unlawful Instigation Ordinance to Dinajpur. Messrs. Balurghat Publishing and Trading Co. were warned for publishing and printing objectionable matters. The local school was deprived of its grant-in-aid due to the active participation of its teachers and students in the movement. Suresh Ranjan Chatterjee of Balurghat was tried for having delivered a speech at Balurghat and was convicted and sentenced to one year's simple imprisonment.

The secret reports of the Government for the first and second halves of September, 1930, make particular reference to the activities of the people of Balurghat sub-division in the civil disobedience movement. According to available information, a 'no tax' campaign appears to have been organized, and nobody came forward to bid at the auction sale of attached properties. The secret reports mention that in October, 1930, it was reported that the residents of Patiraj in police station Itahar, including Santals armed with bows and arrows, had been indulging in lawless demonstrations as a result of which no chowkidari tax could be collected. In the reports for November, 1930, it was recorded that conditions in Dinajpur had improved except for an incident in Balurghat sub-division in which obstructions were offered to some constables while escorting prisoners.

Dinajpur continued to figure in the reports of the Government as a troubled district. During the months of June and July, 1932, the Santals at Akchha in Gangarampur police station of Balurghat sub-division stopped paying rents, chowkidari taxes, etc. In the opinion of the authorities, the Santals had been encouraged to defy the authority of the Government by the civil disobedience movement; according to available records, the Santals were led by Kashiswar Chakrabarti, a Swarajist worker of Dinajpur. They came into clash with the Police on a number of occasions; particular mention may be made of the incident on the 1st July, 1932, when they resisted arrest of some of their co-villagers; the Police thereupon opened fire. Most of the leaders of these Santals were arrested and convicted in specific cases.

On the 28th October, 1933, the railway station of Hili was raided by a group of young men dressed in military uniform. The station staff offered strong resistance, and there was an exchange of fire as a result of which the night guard of the railway station sustained serious injury and died in the hospital. The raiders who belonged to the Anusilan Samiti hoisted the National Flag on the station building and decamped with a large amount of money. Subsequently, all the young men who raided the railway station were arrested and brought to trial, and most of them were sentenced to undergo imprisonment for various terms including transportation for life.

During the 1942 Quit India movement, the people of Balurghat sub-division acted in a noteworthy manner. On the 13th September night, about eight thousand people from the rural areas assembled at Dangighat on the western bank of the Atrai, and three miles from Balurghat town. Under the leadership of the local Congress leader, Saroj Ranjan Chatterjee, they formed a procession in the next morning and proceeded to Balurghat and besieged the town. The Sub-Registrar's Office was completely burnt down. The Civil Court building and the Co-operative Bank building were also burnt. Telegraphic wires were cut and telegraphic apparatus were dismantled. The Post Office, the Out-Agency Office of the B & A Railway, the Jute Inspector's Office, the Agricultural Demonstrator's Office and Godown, the Assistant Jute Inspector's Office, the Union Board Office, etc., were raided, and office papers and furniture damaged. Ganja and liquor shops were also raided. The processionists were in virtual control of the town, but their control was rather short lived as the movement was crushed the very next day by the District Magistrate who arrived from Dinajpur with a strong force. The armed police contingent under the District Magistrate opened fire in Tapan police station on a mob of 200 villagers proceeding towards Telighata to prevent the export of paddy from the district. Meetings and processions were prohibited in the whole sub-division, there were large-scale arrests, and a reward of one thousand rupees was declared for the arrest of Saroj Ranjan Chatterjee. His house was sealed, and subsequently his movables were put to auction. The local Congress office at Balurghat was sealed. The Police raided many houses, and a punitive fine of seventy-five thousand rupees was imposed on the Hindu residents of a section of Balurghat town with the arrival of a large contingent of armed policemen with District Magistrate from Dinajpur, the movement was crushed.

TOPOGRAPHY :

The district is drained by a number of North-South flowing rivers like Atreyee, Punarbhaba, Tagon and Brahmani. It is predominantly an agricultural district with large area of land being under cultivation.

Geology

Geologically Dakshin Dinajpur district is a rather featureless plain consisting entirely of alluvium. The area forms part of the great barind or pleistocene (older) alluvium, which is the largest of the alluvial units of the Bengal basin. At the surface, this older alluvium is covered by the floodplains of the Tagon, Punarbhaba, Atreyee and Yamuna rivers which flow in a southerly direction across the district. Some of these rivers with headwaters in the Himalayan foothills, have deposited a broad piedmont alluvial plain which overlap the barind on the north. Where these rivers flow over the barind they have generally developed entrenched meanders.

The soil of the district consists of as ash-coloured clayey silt, locally called khair. This, a soft sticky loam in the rainy season, hardens almost to the consistency of cement in the dry weather, when it is unsuitable for growth of vegetation. In the northern half of the district and on the banks of some of the principal rivers in the south, the soil consists of a sandy loam mixed, towards the north, with gravel. This goes by the local name of pali.

Dakshin Dinajpur is not a mineral rich district. No major mineral is available in the district. The minor minerals that are available is river sand and brick earth/clay.

CLIMATE :

Temperature : Maximum 37 ° C, Minimum 9 ° C. Total rainfall of the area is 1607mm.

WATER RESOURCES :

Dakshin Dinajpur district is criss-crossed by a number of rivers and streams. There are four main rivers, viz. Atrayee, Punarbhaba, Yamuna & Tangon. All these rivers flow from north to south and all of them originate from Bangladesh. Besides, there are three small rivers i.e Ichhamati, Bramhani & Tulai flow through this district. There are a number of streams and canals originating from big small rivers and merging with others. All these rivers and streams are perennial in nature and do not dry up even during the dry seasons.

Tangan : The Tangan rises in that part of the Jalpaiguri district which now forms part of Bangladesh and enters the district of West Dinajpur at the tri-junction point of the police stations of Pirganj and Bochaganj in Bangladesh and Kaliaganj police station. It passes through the police stations of Kaliaganj, Kushmandi and Bangshihari, and then enters the district of Malda. Tangan merges with Punarbhaba river at Tapan Block at this district and then converges with river Mahananda in Malda district.

Punarbhaba : The Punarbhaba (corrupt form of the original name, Apunarbhaba meaning that a bather in it has not to suffer the ordeal of re-birth) enters the district across the northern boundary of the police station of Gangarampur and Tapan, and then enters Bangladesh.

Atrayee : The Atrayee or Atrai enters the district on the north in Kumarganj police station. It flows right across Kumarjanj and Balurghat police stations. Both Kumarganj and Balurghat are situated on the bank of the Atrai.

Prior to 1785, the rivers Atrayee and Punarbhaba were connected with the river Tista. Sometime between 1785 and 1787 a bar formed about four miles (about six km) above the place called Kantamari or Katamari and ten miles (sixteen km) below Jalpaguri town, blocking the junction of the rivers Atrai and Punarbhaba with the Tista. As a result, the Tista which used to flow to the Ganges along the channels of the Punarbhaba, the Atrai and the Karatoya, changed its course and flowing through the district of Rangpur, joined the Brahmaputra. The district of Rangpur suffered severely from inundation.

The feasibility of removing the bar and, by closing up the mouth of the new channel, to make the Tista flow along its old course was examined by the Government, and in 1789 the Governor-General, Lord

Cornwallis, sanctioned an estimate of more than two lakhs of rupees (sicca rupees) for carrying out the project, but the project was apparently abandoned after some time probably because it was found to be impracticable. It is difficult to realize the important roles which the rivers Punarbhaba and Atrai used to play in the economy of the district as important means of communication as they are almost nonexistent now.

Yamuna : The river Yamuna enters the district from the north at the eastern extremity of the Hili police station, and, after flowing past the town of Hili, leaves the district and enters Bangladesh.

The number of tanks in the district is considerable, there being a tank or two in every village. There are also tanks by the road side. These tanks provide water for bathing, for pisciculture and also for irrigation. The more important tanks from the point of view of size are the Mahipaldighi, the Kaldighi, the Dhaldighi, the Pransagar and the Tapandighi. The last named tank is the biggest and is situated in the police station of Tapan. It is a very old tank but with the lapse of time a large part of it is silted up.

A few big tanks in this district are considerable, viz. Tapan Dighi in Tapan Block, Kalidighi, Dhaldighi and Pransagar in Gangarampur Block, Mahipal Dighi in Kushmandi Block and Malian Dighi & Alta Dighi in Garirampur Block.

FLORA & FAUNA :

The trees usually found in the district are the mango, jam, banana, simul and palas. The most abundant vegetation is bamboo, clumps of which still can be seen. The trees found in the natural forests are usually Sal of a stunted variety, Hijal, Sisu, Simul. Teak can be found in Khadimpur in Balurghat police station. The quality of timber is said to be better than the teak produced in Madhya Pradesh. The district has only 8.11 sq. km. of recorded forest in 41 patches which is less than 1% of the total geographical area of the district.

Due to widespread human habitation there is hardly any wild animal worth mentioning in the district. Earlier there used to be some leopards. However jackals and mongooses are still found.

IMPORTANT PLACES :

Hili Block : Hili, a bordering block headquarter, was a bustling town before partition. The major part of the town is now in Bangladesh. This is very famous for the international Indo-Bangladesh Border Checkpost. Hili is already the second largest land custom station/land port in the State.

Sarongbari is a small forest and a very attractive picnic spot.

Balurghat Block : Balurghat is the district Headquarters Dakshin Dinajpur district. Balurghat town played an important role in the August Movement in the year 1942 against the British and occupies a place of pride in the history of freedom movement of India. There are two small forests one of Raghunathpur and another called Dogachhi forest around Balurghat. By the side of the Dogachhi forest, there is a zigzag canal with boating facility which is a major attraction for the people visiting this place.

The college museum of Balurghat, though a small one, is worth seeing having antique collections including coins, inscriptions, sculptures, terracotta, ornamental stones, etc. of ancient ages which are preserved here. Two inscriptions have been deciphered by Prof A K Goswami which has thrown new light on the religious belief of the Pala period.

Khanpur : It is situated on the Patiram-Trimohini road about 18 Kms away (North-East) from Balurghat town. This place is very famous for the TEBHAGA Movement. History tells us that in the year 1946, the share croppers of this area raised a movement for establishing their $\frac{1}{4}$ share of the crops.

To combat this movement the British Force along with local Zamindars started various oppressive measures including plunder, rape, setting fire, etc. In the face of such oppression, the movement instead of subsiding, further flared up. The local cultivators also lent their whole-hearted support to the movement. On 20 February, 1947, a large contingent of Police force went to Khanpur to arrest the leaders of the Tebhaga Movement. Under the leadership of Chiarshai Sekh, the people disconnected the road. The Police arrested Smt Jasoda Rajbanshi, W/o Nilkantha Rajbanshi (Party Secretary), Sri Gopeshwar Das Mohanta, Sri Ghutui Kolkamar, Sri Gajimuddin and Sri Sashi Barman.

However, the share croppers under the leadership of Chiarshai Sekh succeeded to snatch away those arrested cultivators from the police jeep and damaged the vehicle. The Police then opened fire. As per report police fired about 121 rounds upon the public. As a result 21 (twenty one) cultivators died on the spot. Among these victims were people belonging to the Hindus, Muslims and the Scheduled Tribes. There is a small memorial in the spot inscribing the names of the patriotic souls

Patiram Thakur Estate : On the Balurghat-Malda state highway, the Patiram Thakur Estate can be seen by the side of the river Atreyee. Old buildings of this estate are still there bearing the memory of the Tagore family.

Bolla Kali Temple : On the Balurghat- Malda Highway in the village Bolla is situated a famous Kali temple named after "Bolla Ma Kali". Kali Puja is being observed here on every Friday following the Rash Purnima. Thousands of devotees throng the place to offer prayers and puja from different parts of the district.

Tapan Block : The big lake of Tapan namely Tapan Dighi is situated in the village Tapan Behind the naming of this lake there is a myth that king Laxman Sen dug this lake with a view to offering Tarpana for his ancestors.

On the northern bank of this lake, one dilapidated mound dating back to the period of Buddha can be seen. The real truth can be unearthed only if excavation work is taken up. Another important site in this area is the village Manohali. One can see large number of icons still remaining scattered in this area.

Bangarh : Historically probably the most important of all places in the entire district, Bangarh boasts of the largest share of archaeological ruins and icons to be found in Dakshin Dinajpur. Bangarh was the capital of Koti Barsha district. During the Gupta period, the whole of North Bengal was known as Pundra Vardhana Bhukti (Pradesh). It was again sub-divided into number of Vishayas (District). Koti Barsha was one of the districts. Its old name was Debkot/Debikot. In a radius of 8 Km of this area, different ancient archaeological remnants have been found.

Under the leadership of Prof Kunja Gobinda Goswami the excavation work was done between 1938-1941. After excavation, so many historical objects and archeological ruins have been found beginning from Mauryan era to Muslim period.

Some of the notable objects found on excavations are : Manuscript of king Naipala of 11th century - now it is kept in the college Museum of Balurghat. Statue of sentry (DARPAL) - it is stated that this statue is kept in Balurghat Police line. Four big pillars of Granite stones - it can be found in the village Shibbati, i.e. near the excavation spot. In the opinion of historians, these were the Pillars of Lord Vishnu Temple. Walls of buildings - it can be found in situ at Bangarh. Statues & Pillars - many statues, pillars and variety of small objects are kept in the Shibbati Missionary School. On the western side of Bangarh on the bank of river Punarbhaba, we can see the grave of Turkish warrior Bakhtiar Khilji.
